

# Omni-Search

## Find it Faster

Leverage the collective knowledge in your information systems.

Search **ALL** of your systems using **ONE** easy to use, system agnostic tool:

- ✓ Financial Systems
- ✓ Document Management Systems
- ✓ Network Directories
- ✓ Conflict Systems
- ✓ Marketing Systems
- ✓ Case Management Systems
- ✓ Timekeeping Systems

## Advanced Search Tools

**Omni-Search** is revolutionary and redefines how law firm content can be searched for any purpose. Advanced search options allow firms to locate information with laser like precision.

- ✓ Exact Word
- ✓ Prefix
- ✓ Proximity (within (x) words)
- ✓ Phonetic
- ✓ Synonym
- ✓ Related Words (Bill = Invoice)
- ✓ Tunable Fuzzy Logic

Firms having dealt with simple search tools in the past will immediately appreciate the dexterity and precision **Omni-Search** provides. Irrelevant results are a thing of the past. Find **what** you need, **when** you need it.

## Use **Omni-Search** To:

### **Discover Hidden Relationships**

Marketing personnel will be able to uncover any prior contact with clients or prospective clients dramatically faster in ways never before possible.

### **Risk Management**

Conflict of Interest checking takes on a whole new dimension when file opening personnel can not only look into client and matter names but parties, time entry descriptions, expense descriptions, case management, document management and even marketing data delivered efficiently and effectively by this one-single tool.

### **Capitalize on Past Experience**

Your firm has spent thousands of hours creating meaningful content that could be useful in today's case. **Omni-Search** offers a practice wide knowledge seek platform which will allow the attorneys to repurpose relevant content saving the firm and its clients time and money.

In an age where efficiency matters more than ever, **Omni-Search** provides a competitive advantage throughout your business. Unlock the power hidden within the silos of information at your firm now.

## Hassel Free – Worry Free

Omni-Search was designed from the ground up to be easy to implement, easy to manage, and easy to use. Our Web based user interface means no workstation deployment. Our configuration manager provides for central administration.

**Omni-Search** can be configured to run in your practice in days rather than weeks or months and the project requires very little of your IT departments support, making it an extremely low impact , low cost IT project

## No Software to buy.

**Omni-Search** is sold under a Software as a Service (SAAS) model, meaning there is no upfront cost to acquire the software. Simply pay each month you use the system and cancel at any time. Given the efficiencies gained by using **Omni-Search**, many firms achieve ROI the very first month they use the product.
